DESIGNS FOR HEALTH ADRENAL COMPLEX

— NEW AND IMPROVED —

With the ever-increasing concerns over the safety of glandular materials, we have re-examined this issue and have gone to extreme lengths to obtain the purest and cleanest sources of glandulars on the market today. Our glandular materials are obtained only from certified BSE-free countries (Argentina) and are freeze dried to avoid rancidity. The B-vitamin profile of the product was rounded out to include a more complete spectrum of B's, most provided in their pre-activated phosphorylated form.

N-Acetyl-L-Tyrosine and Vitamin C were added in order to provide critical catecholamine repletion, often necessary for those experiencing chronic stress. This product was designed with the intention of rejuvenating tired adrenal glands. This product can be used along with Designs for Health® Adrenotone Plus.

Designs for Health® , Inc.

2 North Road • East Windsor, CT 06088
